Tuesday

Dear Mr.

I enclose letter rec. from Maria Gay. A very friendly letter as you will see. I suppose they did think I was making myself rather numerous all at once. First went a box of bulbs to each, then a pkg. of trees to each, then a letter to Maria and postal to Mr. F. and then another letter to Mr. with seeds of nemophila. Well I dont expect to write any more for a good while.

You better send this over to Lou after reading, and you may if you please ask Lou to send it to Aunt

Jennie as she would no doubt be pleased to see it.

I dont feel just happy over you. you seem isolated both as to your class and as to the other girls at the club house. I have only one consolation about the matter and that is that the time is short. Whether you will be any happier at home remains to be seen. I suppose the sooner we make up our minds that we will be happy whether things are to our liking or not the better.

Papa wants us

Good Bye.

Lu Ed.
